### Notes, Hints & Tips:

- Make sure you rinse the rock under clean warm water before placing it into the enclosure
- Hide rock should be cleaned thoroughly once a month with a reptile safe disinfectant
- Rock should be placed in a cool area of the terrarium, directly over substrate
- To prevent drowning, it is important that the reptile be able to enter and exit the water dish safely and with ease. Water should be replaced daily and checked regularly to ensure the removal of faeces.

### Warnings & Disclaimers:

- Hide rock should not be placed directly on top of a heat mat or any other in ground heating appliances such as heat cords.
