46515	Heat Cord 100w 12m Terraheat 240V Black W/proof	1	36

Notes, Hints & Tips:

- Tape the cable in parallel runs spaced no less than 5cm apart.
- Monitor and conduct visual inspections of the heat cable daily for the first 3-5 days after installation to ensure heat cable is functioning properly.
- Install the heat cable safely so that your reptiles cannot chew or scratch the silicone cable.

Warning and Disclaimers:

- If the heat cable is submerged in water ensure the power cable is not submerged.
- The appliance is not intended for use by children or infirm persons without supervision.
- Do not use the appliance for reasons other than the intended use.
- Reptile One recommends the use of a thermostat with heating cables.
