# Heat Lamps

## Day Light Heat Lamps

The Reptile One Daylight Basking Lamps are used to provide intense light and optimum heat conditions during daylight hours over a selected basking point such as a rock or log.

These lamps are ideal for diurnal, sun-loving animals that will be attracted to a bright light source.

**Suitable for: Most Skinks, Agamas, Legless Lizards and Snakes**

### FEATURES & BENEFITS:

- Daylight lamp provides heat over your reptile's basking location
- For use as a primary overhead heat source during daylight hours
- Can be used in conjunction with a Night Heat Lamp

### RECOMMENDED

Code	Description	Qty Inner	Qty Carton
46548	Heat Lamp Socket Ceramic Suit Up To 200w E27 Screw	1	48

46548

### NOTES, HINTS & TIPS:

- Reptile One recommend using the Heat Lamps with the Reptile One Ceramic Socket (#46548)
- When changing the heat lamp, be sure to let the lamp cool down before handling
- Ensure Reptiles are not able to touch the surface of the lamp as they can burn easily

### WARNING AND DISCLAIMERS:

- CAUTION Do not touch lamp while switched on
- Allow to cool before attempting to remove lamp from socket
- When replacing lamp ensure the unit is switched off
- Ensure animal cannot come in contact with heat lamp
