

## Infrared Heat Lamps

The Reptile One Infrared Heat Lamp provides a soft light output while providing the optimum heat conditions. These lamps can be used on a range of animals including reptiles, birds and mammals and are an ideal choice in situations such as rehabilitation and brooding where bright lights can stress the animals.

**Suitable for: Most Desert or Savannah dwelling Goannas, Tegus, Bearded Dragons and Snakes**

### FEATURES & BENEFITS:

- Heat emitting soft light ideal for recuperating animals
- Use in conjunction with Reptile Holder to direct heat to preferred basking area

46548

### NOTES, HINTS & TIPS:

- Reptile One recommend using the Heat Lamps with the Reptile One Ceramic Socket (#46548)
- When changing the heat lamp, be sure to let the lamp cool down before handling
- Ensure Reptiles are not able to touch the surface of the lamp as they can burn easily

### WARNING AND DISCLAIMERS:

- CAUTION Do not touch lamp while switched on
- Allow to cool before attempting to remove lamp from socket
- When replacing lamp ensure the unit is switched off
- Ensure animal cannot come in contact with heat lamp
