Night Heat Lamps

The Reptile One Night Heat Lamps are a low light heat source designed to provide a blue hue to help replicate natural moonlight conditions while providing a heat source for nocturnal reptiles.

Suitable for: Most Geckos, Anoles, Chameleons and Snakes

FEATURES & BENEFITS:

- Assists in inducing normal nocturnal behaviour
- Can be used in conjunction with a Daylight Basking Lamp.

NOTES, HINTS & TIPS:

- Reptile One recommend using the Heat Lamps with the Reptile One Ceramic Socket (#46548)
- When changing the heat lamp, be sure to let the lamp cool down before handling
- Ensure Reptiles are not able to touch the surface of the lamp as they can burn easily

WARNING AND DISCLAIMERS:

- CAUTION Do not touch lamp while switched on
- Allow to cool before attempting to remove lamp from socket
- When replacing lamp ensure the unit is switched off
- Ensure animal cannot come in contact with heat lamp
